

IHS: Rack Density Remains Low, But Will Increase (Eventually)

Written by Marco Attard
07 October 2016

According to IHS Markit rack PDUs with power ratings in the 5-10kW range account for 41% of 2015 global rack PDU revenue-- an improvement from 38% in 2013, and proof a shift is taking place.

However, while 5-10kW rack PDUs are growing in popularity over
