Wire and cable preparation, installation, hand termination and testing solution specialist Platinum Tools launches four ezEX-RJ45 termination kits, all organised inside a heavy-duty nylon zippered case.

The first kit is the EXO ezEX-RJ45 (P/N 90140). It includes electrician scissors, cable jacket stripper, EXO Crimp Frame, EXO-EX DIE and 10 ezEX44 connectors, and provides an ideal mix of tools for both new and experienced installers. Meanwhile the EXO EZ-RJ45 kit (P/N 90141) includes electrician scissors, cable jacket stripper, EXO Crimp Frame, EZ-RJ45 Die and 10 EZ-RJ45 CAT5E connectors, and is designed to "allow the user to prepare and terminate with precision and speed."

The ezEX-RJ45 kit (P/N 90148) includes all termination, preparation and test tools required to properly terminate ezEX44 connectors with precision and speed in the field. The final kit is the EXO Deluxe (P/N 90149), which packs all termination, preparation and test tools needed to terminate EZ-RJ45, ezEX44 and ezEX48 connectors.

All the above mentioned Platinum Tools termination kits are shipping now.
