

Chief Launches FastFlip Digital catalog

Written by Marco Attard
31 October 2013

Chief releases its 2013-2014 online digital catalog-- one featuring a streamlined layout complete with easy-to-navigate products and accessories, the result of extensive installer and dealer feedback.

The catalog includes the latest information on the Chief mount, rack, interactive technology and accessory ranges. New products for 2013 include Fusion ceiling-mounted menu boards, bolt-down video walls and Kontour monitor array mounts.

The catalog is searchable, making it easier to find what you need, and is accessible from any device with an internet connection or downloadable as a standard PDF.
