Marshall Electronics Teleconference PTZ Camera delivers broadcast quality video to teleconference and pro AV applications of all types.

USB3.0 support provides an ability to use state-of –the-art video performance as high as 1920x1080p 60/50fps. Its small size makes the **CV610-U3** versatile and able to be integrated into teleconference and huddle room environments using any familiar UC video application.

It features a compact design yet operates with 350° Horizontal pan, 120° Vertical tilt.

With a 2 Megapixel 1/2.8-inch Sensor, CV610-U3 provides Full-HD Video (1920x1080p, 1280x720p & 1920x1080i) at a range of high speeds: 60, 50, 30, 25 fps.

It comes with 10x optical zoom 6.53~62.18mm (F1.8~2.8) up to 12x digital zoom.

This camera has extreme quiet PTZ movements with 128 presets, useful in conference room applications. It's both shelf and ceiling mountable with 1/4"-20 including flippable image ability.
