

The largest and busiest **Integrated Systems Europe** in its 15-year history drew to Amsterdam RAI a record number of exhibitors and attendees from around the world for the latest in conferencing, collaboration & meeting room technology.

Throughout 15 halls, visitors could experience 1296 exhibitors, (294 exhibiting at ISE for the first time). They filled 53,000sqm of exhibition floor space (floor space already booked for ISE 2019 is 103% of this.)

The number of registered visitors by the end of the show had reached 80,923, an increase of 10.3% on the 2017 edition. Importantly, almost 20,000 visitors attended the last day of the show. More than 30% of the total attendees were visiting ISE for the first time.

The gift that is ISE just keeps giving... and rAVe Publications in USA picked the **2018 Best of ISE Awards**

Gary Kayye explains..."You can't enter a product in them. You can't ask us to nominate you. And, you can't get an award by advertising or sponsoring us or paying for it. And, there are NO Awards entry fees!
