---

ClearOne announces COLLABORATE Live-- a range of 4 video collaboration solutions for any size room environment complete with audio and video, interactive whiteboarding, presentation, recording, streaming and cloud connectivity.

Aimed at large sized boardrooms, auditoriums, conference rooms, lecture halls, courtrooms, training centres and telemedicine facilities, COLLABORATE Live 900 is a high-end system with audio DSP technology. It features a suite of built-in conferencing capabilities, including a Skype for Business client, SIP/H.323 video conferencing, wireless presentation, interactive whiteboard, recording and streaming and a simple UI as familiar as the interface found on a tablet or mobile device.

Also included is a CONVERGE Pro 2 DSP mixer and an audio processor with a ClearOne Beamforming microphone array featuring adaptive steering technology. A UNITE 200 PTZ 1080p60 camera provides high-quality video capture with 12x optical zoom. The system also includes a 90-day free trial of the COLLABORATE Space cloud-based video conferencing application.

The COLLABORATE Live 600 is a video collaboration system delivering full-duplex audio for medium-size conference rooms. It includes the same suite of built-in video conferencing capabilities, UNITE 200 PTZ camera, user-friendly UI and 90-day COLLABORATE Space trial subscription. For audio, the system features x2 ClearOne CHAT 150 speakerphones users can daisy-chain with CHATAttach.

For complete small room and executive office video collaboration ClearOne offers the COLLABORATE Live 300. It features the same simple UI as the larger room systems, as well as the free 90-day COLLABORATE Space subscription, Skype for Business client, SIP/H.323 video conferencing, wireless presentation and interactive whiteboard capabilities, together with

x1 CHAT 150 speakerphone and x1 UNITE 150 PTZ 1080p30 camera.

The final product on offer is the COLLABORATE Live 200, a video collaboration system with wide angle video capture designed for huddle space use. It features a UNITE 50 EPTZ 1080p30 camera with 3x digital zoom and a 120-degree wide-angle lens. Other features are similar to the COLLABORATE Live 300, including the free 90-day COLLABORATE SPACE subscription.

The COLLABORATE Live series officially launches at ISE 2019.
