

YBUY EV: Digital Signage for Single Products

Written by Bob Snyder
30 July 2012

Ybuy EV is a full featured, cost effective and customizable digital display that's aimed at providing **digital signage for a single item product promotion.**

It's easy to install all-in-one media player and display.

And you can manage content from any web browser.

Designed to work seamlessly with InVue PODs, maker claims it's the easiest solution on market.
