

Medialine's Totem-Series

Written by Bob Snyder
18 March 2013

The new Medialine **Totem 4-series** are designed for 24/7 operation with DID panels of Samsung and AUO—and built with industrial metal housing and tempered glass.

It also features a built-in network media player capable playing almost all formats of Full HD multimedia files.

This unit can also play as stand-alone device.

Two models (46"/730mm and 55"/840mm) offer different brightness levels: 400cd/m2 (46") and 450cd/m2 (55").

Viewing angle is 178-degrees and contrast ratio 5000:1.
